

5 **USE OF AN OXIDIZING SYSTEM COMPRISING A MACROCYCLIC
METAL COMPLEX AND AN OXIDIZING AGENT FOR REMOVING
EXCESS, UNFIXED DYE FROM DYED, TEXTILE MATERIALS**

ABSTRACT OF THE DISCLOSURE

The use of an oxidizing system comprising a macrocyclic metal complex and an oxidizing agent removes excess, unfixed dye from dyed, textile materials after dyeing without the actual dyeing of the textile material being attacked. The oxidizing system is preferably used in at least one of the post-dyeing rinse steps.
